AMSOIL Products for Motor Homes

AMSOIL Synthetic Motor Oils

For Heavy Duty Diesels

Series 3000 Synthetic 5W-30 Heavy Duty Diesel Oil • SAE 30 Synthetic Diesel Oil • Synthetic 15W-40 Heavy Duty Diesel and Marine Oil • Synthetic Blend 15W-40 Gasoline and Diesel Motor Oil

AMSOIL diesel oils are specifically formulated for hard-working, hot-running diesel engines. AMSOIL Diesel Oils significantly reduce operating temperatures, inhibit the formation of engine deposits and provide unmatched wear protection.

For superior performance, better fuel economy and reduced oil consumption, treat your diesel to the best — AMSOIL Diesel Oils.

For Gasoline and Light Duty Diesels

Series 2000 Synthetic 0W-30 Motor Oil • Series 2000 Synthetic 20W-50 Racing Oil • Synthetic 5W-30, 10W-30 and 10W-40 Motor Oils • Synthetic Blend 10W-40 Motor Oil • XL-7500 Synthetic 5W-20, 5W-30 and 10W-30 Motor Oils

AMSOIL motor oils are ideal for gasoline and light duty diesel motor homes. These superior all-season lubricants minimize wear, increase fuel economy and improve performance through outstanding cooling, film strength and degradation resistance. And the synthetic formulation means you don't have to change oil as often, further increasing your savings.

“These engines run extremely hard. With AMSOIL, we can expect a 20 to 30 degree temperature drop, and that means more power being used for output.”

– R. Z., ROANOKE, VIRGINIA

AMSOIL Synthetic Gear Lubes

Series 2000 Synthetic 75W-90 and 75W-140 Gear Lubes • Synthetic 75W-90, 80W-90 and 85W-140 Gear Lubes

Motor home drive trains generate high temperatures and pressures, which can cause significant gear wear. AMSOIL Synthetic 75W-90, 80W-90, and 85W-140 Gear Lubes afford outstanding wear protection, outperforming petroleum gear lubes in high-load, high-wear applications. AMSOIL synthetic gear lubes extend gear life by protecting critical parts from deposits and surface distress even in sustained high-temperature service. AMSOIL synthetic gear lubes help increase fuel economy in motor homes by reducing friction far better than petroleum gear lubes. AMSOIL synthetic gear lubes offer outstanding rust and corrosion protection for motor homes stored for long periods.

AMSOIL Series 2000 Synthetic 75W-90 Gear Lube provides unparalleled protection and fuel economy for high-stress applications such as motorhome transmissions and differentials. In fact, an independent test facility found AMSOIL Series 2000 Synthetic 75W-90 Gear Lube in the differentials of heavy-duty diesel trucks provided a 4.83 percent increase in fuel economy over the fuel economy provided by a popular conventional gear lube.

AMSOIL Synthetic Automatic Transmission Fluid

AMSOIL Synthetic Automatic Transmission Fluid is chemically engineered to provide unexcelled lubricating protection and substantially longer service life than conventional petroleum fluids. AMSOIL ATF protects transmissions from the tremendous internal heat they generate, even in the demanding severe operating conditions of motor homes. AMSOIL ATF resists oxidizing in temperatures which oxidize conventional automatic transmission fluids and damage clutches, planetary gears, valves, pumps and seals. And with a -76°F pour point, the low temperature fluidity of AMSOIL ATF provides dependable starting, smooth shifting and excellent fuel economy in cold temperatures.

AMSOIL Synthetic Automatic Transmission Fluid is a universal, multifunctional fluid recommended for power steering applications. With AMSOIL ATF, the need for specialized fluid inventories and the possibilities of misapplication are greatly reduced.

AMSOIL Filtration Products

AMSOIL Air Filters

Motor homes are exposed to a lot of dust and dirt. Good air filtration is vital to keep abrasive particles from entering the engine and destroying precision components. The AMSOIL 2-Stage Air Filter stops dirt by trapping it inside thick layers of specially designed polyurethane foam. The foam effectively removes dirt without restricting the flow of air. And the AMSOIL 2-Stage Filter is designed to last indefinitely with proper service. Under normal driving conditions it may be used for 25,000 miles or one year, then cleaned, reoiled, reinstalled and used again for thousands of additional miles of trouble-free service.

The AMSOIL Spin-On By-Pass Oil Filter

The AMSOIL Spin-On By-Pass Oil Filter is the ultimate in effective and convenient oil filtration. The unique spin-on by-pass cartridges are quick and easy to service. And because it is a by-pass system, the filter cleans oil thoroughly. In fact, the AMSOIL By-Pass removes virtually all harmful dirt particles from engine oil. The AMSOIL By-Pass even removes water.

The AMSOIL Super Duty Engine Oil Filter

Performance tests show the AMSOIL Super Duty Oil Filter provides up to 100 percent more capacity than other leading filters, and achieves nearly 95 percent operating efficiency, outperforming all major brands. The Super Duty is composed of a high-tech blend of fiberglass, cellulose and synthetic fibers, giving it superior capacity, performance and extended drain capability.

“My Plymouth Grand Voyager exhibited a surprising performance improvement after installing the AMSOIL Air Filter. The engine had much more pep and acceleration, and the gas mileage improved significantly.”

– H.W., SILVER SPRINGS, MARYLAND

AMSOIL Synthetic Grease

Greased bearings and linkages endure heavy loads on RV vehicles. In addition, wheel bearings, U-joints and suspension points are extremely susceptible to the harmful effects of dirt, water and mud.

AMSOIL Greases are especially suited for all types of motor home applications. The tough synthetic formulations provide outstanding protection against friction, heat and wear, even in high-stress applications. AMSOIL synthetic greases offer superior low-temperature pumpability, resistance to water washout and thermal and oxidative stability.

AMSOIL Fuel Additives

Whether you're crawling up a steep mountain pass or merging into traffic on an interstate, you need all the power you can get. AMSOIL Fuel Additives can give your RV that added zip needed for critical moments. Use P.I. Performance Improver, Series 2000 Octane Boost and Gasoline Stabilizer for gasoline engines, Diesel Fuel Modifier for light diesels, Diesel Fuel Additive Concentrate for medium and heavy diesels and Cetane Boost for all diesel applications.

All AMSOIL Fuel Additives improve combustion efficiency for easier starting, smoother idling and fewer exhaust emissions.

For a trouble-free fuel system, improved fuel economy and more power, you can depend on high-quality AMSOIL Fuel Additives.

AMSOIL Pro-Formula Metal Polish

Cleans, polishes and protects chrome, aluminum, brass and stainless steel with wipe-on, easy-buffing convenience.

Pro-Formula Metal Polish imparts a protective barrier that inhibits the formation of rust and oxidation.

AMSOIL Miracle Wash

A unique dry car wash that delivers outstanding performance and quick, easy, economical application. Its special formulation lifts dirt, holds it in suspension and shields surfaces from abrasion.

Miracle Wash repels dust and light dirt and protects automotive finishes from the sun's ultraviolet rays.

AMSOIL Pro-Formula Car Polish

Goes on easily and produces a brilliant, mirror-like, long-lasting shine with only light hand buffing.

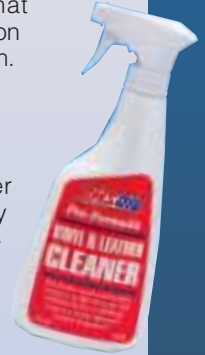

Pro-Formula Car Polish forms a tough, durable, protective barrier against the elements, including the sun's ultraviolet rays. Inhibits fading.

AMSOIL Pro-Formula Vinyl and Leather Cleaner

Penetrates deeply into vinyl and leather upholstery to lift out imbedded dirt. Simply spray on, wait a minute or two for deep-cleaning action to loosen dirt and wipe.

Pro-Formula Vinyl and Leather Cleaner prepares vinyl and leather upholstery for protectant application.

AMSOIL Pro-Formula Vinyl and Leather Protectant

Imparts a deep, rich luster to vinyl and leather upholstery. Seals and protects leather, vinyl, rubber, plastic and finished wood surfaces. Wipes on easily.

Pro-Formula Vinyl and Leather Protectant inhibits fading and cracking and protects against the sun's ultraviolet rays.

AMSOIL Propylene Glycol Antifreeze and Engine Coolant

AMSOIL Antifreeze and Engine Coolant provides superior cooling characteristics and long-term cooling system protection for all water-cooled engines, effectively transferring heat and providing superior protection from freezing, overheating, rust and corrosion. It is also safe, biodegradable and essentially nontoxic, making it the correct choice for personal health, superior engine protection and planetary ecology.
